

DigiHeritage

ABOUT DIGIHERITAGE

DigiHeritage is a European project supporting the **digital transformation of cultural heritage**. Bringing together education, culture and technology partners, it develops new skills, **training pathways and digital tools** for museums, archives and cultural SMEs. Focused on **AI, blockchain and 3D scanning**, the project is helping shape a **new generation of DigiHeritage Managers**.

OUR PARTNERS

DigiHeritage brings together **12 partners from 7 European countries**, including universities, VET providers, cultural heritage organisations, SMEs and policy-oriented actors. Together, they are building a **stronger European ecosystem** for digital heritage skills, collaboration and innovation.

CORE ACTIVITIES

- 1. New Training Pathways**
Developing HE and VET programmes in digital heritage.
- 2. Digital Tools**
Building AI and blockchain tools for data, licensing and provenance.
- 3. Pilot Learning**
Testing training through workshops, pilots and knowledge camps.
- 4. Policy & Inclusion**
Strengthening networks, policy uptake and inclusive participation.
