EUROPEAN OPEN NETWORK FOR GREEN LEADERS IN HOTEL MANAGEMENT

WHAT IS IT ABOUT?

- This is the Web-Based App as a result of the EU-funded project Green Leadership for Hotel Managers (<https://glhm-erasmus.eu>). The goal of this app is to promote networking and peer support among Green Leaders across Europe, facilitating the exchange of best practices, reinforcing adherence to sustainable goals, and promoting the approach of Green Leadership across Europe.
- The app provides a platform for a European network of green leaders, enabling knowledge sharing, peer support, and collaboration on projects that advance sustainable practices within the hotel sector. Moreover, this app includes access to our MOOC (Massive Open Online Course), offering accessible and flexible training opportunities for hotel managers to enhance their green leadership capabilities.
